# Introduction

## ***About the Book***

This book has been designed to be a quick reference guide for looking up the meaning of common Hebrew words found in the Hebrew Bible, as well as a resource for learning the Hebrew vocabulary.

Within this book is a list of the 1000 most frequently used Hebrew verbs (379) and nouns (621) from the Hebrew Bible. Each word entry includes:

1. The Hebrew word (in modern and ancient script).
2. A transliteration of the Hebrew word.
3. A one or two word translation of the Hebrew word.
4. A more detailed definition of the Hebrew word.
5. Cross references to other resources.

In the appendices are additional words and details about the Hebrew language including:

1. The Hebrew alphabet and vowels.
2. Hebrew prefixes and suffixes.
3. Pronouns, prepositions, etc.

## Ancient Hebrew Dictionary

4. Hebrew numbers.
5. Hebrew verb conjugations.

### ***Dictionary Format***

Below is an example entry, followed by an explanation of its contents.

**944.** שָׁלוֹם / שָׁלֹם / sha-lom **Translation:** Completeness  
**Definition:** Something that has been finished or made whole.  
A state of being complete. **AHLB:** 2845 (c) **Strong's:** 7965

### **Modern Hebrew Word**

Following the entry number is the Hebrew word written in the Modern Hebrew script (שָׁלוֹם).

### **Ancient Hebrew Word**

Each word is also written in the ancient pictographic script (שָׁלֹם). In some cases, this spelling may be different than the modern script. As an example, the word אֶהָל (#390) includes the hholam vowel pointing (the dot above the aleph representing the "o" sound), but in most ancient documents this word is written as אוהל (where the letter vav represents the "o" sound) or אֶהָל in the ancient script. In addition, the spelling of words evolve over time. For instance, the word בֹּר (#452, bor, a cistern) comes from the root כּוֹר (kor) meaning

## Introduction

"to dig a hole." Therefore, the ancient spelling of this word would have been קוץ (kor).

### Transliteration

A transliteration from Hebrew into Roman letters (sha-lom) is given to assist with the pronunciation of Hebrew nouns. Verb transliterations will be represented by the consonants only. For instance, the transliteration for the Hebrew verb בָּדַל (#20) is B.D.L.

### Translation

This is one or two English words that best translate the Hebrew word. In many cases, this translation will be significantly different from what is found in other dictionaries. For instance, the word שָׁלוֹם is usually translated as "peace," but this abstract idea does not completely convey the original Hebraic meaning of this word. In this dictionary, the translation of this word is "Completeness." An index at the end of this book allows for a cross referencing from the English translation to its corresponding entry within this dictionary.

### Definition

This is a more specific meaning of the word which reflects its textual and original Hebraic cultural perspective. As an example, in our culture, the word "peace" means "a state of mutual harmony between people or groups." However, in Biblical Hebrew, this word means "a state of being complete."

## **Cross References**

Each entry includes a cross reference to the *Ancient Hebrew Lexicon of the Bible* and *Strong's Dictionary*. An index at the end of this book allows for a cross referencing from Strong's number to its corresponding entry within this dictionary.

### More about the word בָּרַךְ

*The Hebrew verb barak means to kneel as seen in Genesis 24:11. However, when written in the piel form it means to show respect (usually translated as bless) as seen in Genesis 12:2. A related Hebrew word is berakhah meaning a gift or present. From this we can see the concrete meaning behind the piel form of the verb barak. It is to bring a gift to another while kneeling out of respect. The extended meaning of this word is to do or give something of value to another. Elohiym "respects" us by providing for our needs and we in turn "respect" Elohiym by giving him of ourselves as his servants.*

### More about the word כפר

*The Hebrew word kaphar means "to cover over," but is often translated as atonement. The word atonement is an abstract word and in order to understand the true Hebrew meaning of a word we must look to the concrete meaning. If an offense has been made, the one that has been offended can act as though the offense is covered over and unseen. We express this idea through the word of forgiveness. Atonement is an outward action that covers over the error.*

### More about the word פלל

*In our modern religious culture prayer is a communication between man and Elohiym. While this definition could be applied to some passages of the Bible (such as Genesis 20:17) it is not a Hebraic definition of the Hebrew word palal. By looking at the etymology of this word we can better see the Hebraic meaning. The word palal comes from the parent root pal meaning "fall" (The root pal is most likely the root of our word fall which can etymologically be written as phal). Pal is also the root of the Hebrew word naphal also meaning "fall". The word palal literally means to "fall down to the ground in the presence of one in authority pleading a cause". This can be seen in Isaiah 45:14 where the Sabeans fall down and make supplication (this is the Hebrew word palal) to Cyrus.*

## More about the word פָּרַר

*The verb parar is often translated as "break," as in "Do not break the commands of Elohiym." This word does not mean "disobey," as we often perceive it, but something much more concrete. Each Hebrew word is a picture of action. In this case, the picture is an ox treading on the grain on the threshing floor to open up the hulls to remove the seeds. To the Ancient Hebrews, breaking the commands of Elohiym was equated with throwing*

*In our modern western culture worship is an action directed toward Elohiym and Elohiym alone. But this is not the case in the Hebrew Bible. The word shahhah is a common Hebrew verb meaning to prostrate oneself before another in respect, or simply, obeisance. We see Moses doing this to his father-in-law in Exodus 18:7. From a Hebraic perspective obeisance is the act of getting down on ones knees and placing the face down on the ground before another worthy of respect.*

*The image painted by the Hebrew word shamar is a sheepfold. When a shepherd was out in the wilderness with his flock, he would gather thorn bushes to erect a corral to place his flock in at night. The thorns would deter predators and thereby protect and guard the sheep from harm. The word shamiyr, derived from this root means a thorn. The word shamar means to guard and protect and can be seen in the Aaronic blessing, May Yahweh respect you and guard you. One keeps the commands of Elohiym by guarding and protecting them.*

### More about the word אֵל

*When reading the Bible it is better to have an Ancient Hebrew perception of Elohiym rather than our modern western view. The word el was originally written with two pictographic letters, one being an ox head and the other a shepherd staff. The ox represented strength and the staff of the shepherd represented authority. First, the Ancient Hebrews saw Elohiym as the strong one of authority. The shepherd staff was also understood*

*as a staff on the shoulders, a yoke. Secondly, the Ancient Hebrews saw Elohiym as the ox in the yoke. When plowing a field two oxen were placed in a yoke, one was the older more experienced one, and the other was the younger and less experienced. The younger would then learn from the older. The Hebrews saw Elohiym as the older experienced ox and they as the younger that learns from him.*

The two letters give us the meaning of "strong water." The Hebrews made glue by boiling animal skins in water. As the skin broke down, a sticky thick liquid formed at the surface of the water. This thick liquid was removed and used as a binding agent-"strong water". This is the Hebrew word meaning "mother", the one who "binds" the family together.*

### More about the word אֱמוּנָה

*The Hebrew root aman means firm, something that is supported or secure. This word is used in Isaiah 22:23 for a nail that is fastened to a "secure" place. Derived from this root is the word emun, meaning craftsman. A craftsman is one who is firm and secure in his talent. The feminine form of emun is the word emunah meaning firmness, something or someone that is firm in their actions. When the Hebrew word emunah is translated as "faith," as it often is, misconceptions of its meaning occur. Faith is usually perceived as a knowing while the Hebrew emunah is a firm action. To have faith in Elohiym is not knowing that Elohiym exists or knowing that he will act, rather it is that the one with emunah will act with firmness toward Elohiym's will.*

*The root of this word is aman, a word often translated as "believe," but more literally means "support," as we see in Isaiah 22:23 where it says "I will drive him like a peg in a place of support..." A belief in Elohiym is not a mental exercise of knowing that Elohiym exists but rather our responsibility to show him our support. The word "emet" has the similar meaning of firmness, something that is firmly set in place. Psalms 119:142 says, "the "Torah" (the teachings of Elohiym) is "emet" (set firmly in place).*

*While the Hebrew word beriyt means "covenant" the cultural background of the word is helpful in understanding its full meaning. Beriyt comes from the parent root word bar meaning grain. Grains were fed to livestock to fatten them up to prepare them for the slaughter. Two other Hebrew words related to beriyt and also derived from the parent root bar can help understand the meaning of beriyt. The word beriy means fat and barut means meat. Notice the common theme with bar, beriy and barut, they all have to do with the slaughtering of livestock. The word beriyt is literally the animal that is slaughtered for the covenant ceremony. ### More about the word חַי

*The Hebrew word hhai is usually translated as life.  
In the Hebrew language all words are related to  
something concrete or physical, something that*

## Ancient Hebrew Dictionary

*can be observed by one of the five senses. Some examples of concrete words would be tree, water, hot, sweet or loud. The western Greek mind frequently uses abstracts or mental words to convey ideas. An abstract word is something that cannot be sensed by the five senses. Some examples would be bless, believe, and the word life. Whenever working with an abstract word in the Biblical text it will help to uncover the concrete background to the word for proper interpretation. How did the ancient Hebrew perceive "life?" A clue can be found in Job 38:39, "Will you hunt prey for the lion and will you fill the stomach of the young lion?" In this verse the word "stomach" is the Hebrew word hhai. What does the stomach have to do with life? In our culture it is very uncommon for anyone to experience true hunger but this was an all too often experience for the Ancient Hebrews. To the Ancient Hebrews life is seen as a full stomach while an empty stomach is seen as death.*

## More about the word כָּבוֹד

*In Exodus 16:7 we read "and in the morning you shall see the glory of the LORD" (RSV). What is the "glory" of YHWH? First we must recognize that the "glory" is something that will be seen. Secondly, the word "glory" is an abstract word. If we look at how this word is paralleled with other words in poetical passages of the Bible, we can discover the original concrete meaning of this word. In Psalm 3:3 the kavod of Elohiym is paralleled with his shield and in Job 29:20, Job's kavod is paralleled with his bow. In Psalm 24:8 we read "who is this king of the kavod, YHWH is strong and mighty, YHWH is mighty in battle." The original concrete meaning of kavod is battle armaments. This meaning of "armament" fits with the literal meaning of the root of kavod, which is "heavy," as armaments are the heavy weapons and defenses of battle. In the Exodus 16:7, Israel will "see" the "armament" of YHWH, the one who has done battle for them with the Egyptians.*

### More about the word כֹּהֵן

*While the priests of Israel were the religious leaders of the community this is not the meaning of the word kohen. The Hebrew word for the priests of other nations is komer from a root meaning burn and may be in reference to the priests who burn children in the fires of Molech (2 Kings 23:10). The word kohen comes from a root meaning a base such as the base of a column. The koheniym (plural of kohen) are the structural support of the community. It is their responsibility to keep the community standing tall and straight, a sign of righteousness.*

## More about the word מִצְוָה

*The word command, as well as commandment, are used to translate the Hebrew word mits'vah but does not properly convey the meaning of mits'vah. The word command implies words of force or power as a General commands his troops. The word mits'vah is better understood as a directive. To see the picture painted by this word, it is helpful to look at a related word, tsiyon (which is also the name Zion) meaning a desert or a landmark. The Ancient Hebrews were a nomadic people who traveled the deserts in search of green pastures for their flocks. A nomad uses the various rivers, mountains, rock outcroppings, etc as landmarks to give them their direction. The verbal root of mits'vah and tsiyon is tsavah meaning to direct one on a journey. The mits'vah of the Bible are not commands, or rules and regulations, they are directives or landmarks that we look for to guide us.*

### More about the word מְשִׁיחַ

*The word Messiah is a transliteration of the Hebrew word meshiahh. This word comes from the root mashahh meaning "to smear" as in*

## Ancient Hebrew Dictionary

*Jeremiah 22:14 where it is usually translated as "painted". In the ancient world olive oil was a very versatile commodity. It was used in cooking and because of its disinfectant quality, it was used as a medicine. No shepherd was without a flask of olive oil, which he smeared on himself, or his sheep's injuries. The verb mashahh is also translated as "anointed", as in Exodus 29:7, in the sense of smearing olive oil on the head. This ceremony was performed on anyone becoming a king, priest or prophet in the service of YHWH. The noun meshiahh literally means, "One who is smeared with oil for an office of authority." This word is also used for any "one who holds an office of authority" even if that person was not literally smeared with oil. A good example of this is Cyrus, the King of Persia. While he was not ceremonially smeared with oil, he was one of authority who served Yahweh through his decree allowing Israel to return to Jerusalem.*

### More about the word עוֹלָם

*Hebrew words used for space are also used for time. The Hebrew word qedem means "east" but is also the same word for the "past." The Hebrew word olam literally means "beyond the horizon." When looking off in the far distance it is difficult to make out any details and what is beyond that horizon cannot be seen. This concept is the olam. The word olam is also used for time for the distant past or the distant future as a time that is difficult to know or perceive. This word is frequently translated as "eternity" meaning a continual span of time that never ends. In the Hebrew mind it is simply what is at or beyond the horizon, a very distant time. A common phrase in the Hebrew is "l'olam va'ed" and is usually translated as "forever and ever," but in the Hebrew it means "to the distant horizon and again" meaning "a very distant time and even further."*

### More about the word צַדִּיק

*This word is often translated as "righteous," an abstract word. In order to understand this word from an Hebraic mindset, we must uncover its original concrete meaning. One of the best ways to determine the original concrete meaning of a word is to find it being used in a sentence where its concrete meaning can be seen. The problem with the word tsadiyq, and its verb form tsadaq, is that there are no uses of this word in its concrete meaning. The next method is to compare how the word in question is paralleled with other Hebrew words as commonly found in the poetical passages of the Bible. Sometimes these parallels will be synonyms and other times antonyms. When we look at the word tsadiyq we find that it is commonly paralleled with the word "rasha". Rasha is usually translated as "wicked" but has a concrete meaning of "to depart from the path and become lost". From this we can conclude that a tsadiyq is one who remains on the path. The path is the course through life which Elohiym has outlined for us in his word.*

*qadosh. Qadosh literally means "to be set apart for a special purpose". A related word, qedesh, is one who is also set apart for a special purpose but not in the same way we think of "holy," but is a prostitute (Deut 23:17). Israel was qadosh because they were separated from the other nations as servants of Elohiym. The furnishings in the tabernacle were also qadosh, as they were not to be used for anything except for the work in the tabernacle. While we may not think of ourselves as "holy," we are in fact set apart from the world to be Elohiym's servants and his representatives.*

*The word she'ol was understood as the place where one goes when they die. Was this simply the grave one is buried in, or a place one goes too after they die? This is a difficult question to answer as the Hebrew Bible never really defines she'ol. There is evidence however that they understood it to be more than just the grave. First,*

## Dictionary ~ Nouns

*the word qever is the normal Hebrew word for a grave and therefore, it is possible that she'ol was understood as something other than the grave. Second, most scriptures using the word she'ol imply a place other than the grave. An example can be found in Genesis 37:35 where Jacob says "I will go down to my son in she'ol." In this account Jacob believed his son Joseph had been eaten by a wild beast and could therefore not be in a grave, yet Jacob knew that he would be with him somewhere-she'ol. The Ancient Hebrews did not know where, or even what, she'ol was. To them it was an unknown place hence. The word she'ol literally means "unknown." It should also be noted that the Ancient Hebrews never speculated on something unknown, it was simply not known and left at that. It is only the Greek mind that desires to know the unknown. It is our Greco-Roman western mindset that needs to know where and what she'ol is.*

When a person has caused another to become deficient in some way, such as a loss of livestock, it is the responsibility of the person who created the deficiency to restore what has been taken, lost or stolen. The verb shalam literally means to make whole or complete. The noun shalom has the more literal meaning of being in a state of wholeness, or being without deficiency. The Biblical phrase "shalu shalom yerushalayim" (pray for the peace of Jerusalem) is not speaking about an absence of war (though that is part of it), but that Jerusalem, and by extension all of Israel, be complete and whole and goes far beyond the idea of "peace".*

In the Hebrew language there is no such distinction between names and titles. Both words, King and David, are descriptions of character traits. The Hebrew word melek (king) is "one who reigns," while daviyd (David) is "one who is loved". Both of these words are titles, describing the character of David. It is also common to identify the word "Elohiym" (Elohiym) as a title and YHWH (Yahweh) as a name. What we do not realize is that both of these are character traits. YHWH is both a word and title meaning "one who exists" and Elohiym is a word and a title meaning "one who has power and authority". The Hebrew word "shem" more*

### More about the word תורה

*To interpret the Hebrew word torah as law is about the same as interpreting the word father as disciplinarian. While the father is a disciplinarian he is much more and in the same way torah is much more than law. The word torah is derived from the root yarah meaning to throw. This can be the throwing of a rock, the shooting of an arrow, or the pointing of the finger to show direction. Another word derived from this root is the word moreh, which can mean an archer, one who throws the arrow, or a teacher, as one who points the way. The word torah is literally the teachings of the teacher or parent. When a parent is teaching a child a new task and he demonstrates a willingness to learn, but fails to grasp the teaching completely, the parent does not punish the child, but rather encourages him. In contrast to this, a law is a set of rules that if not observed correctly, will result in punishment, and there is no room for teaching. The torah of Elohiym are his teachings to his children which are given in love to encourage and strengthen.*

### ***Tense and Subject***

Most conjugated Hebrew verbs identify the tense of the verb and the gender and number of the subject of the verb.

Hebrew verb tenses are not related to time (past, present or future), as in English, but to action. There are two Hebrew tenses; perfect and imperfect. The perfect tense is used for a complete action and is usually translated with the English past tense. The imperfect tense is used for an incomplete action (an action that has started but not finished or an action that has not started) and is usually translated with the English present or future tense.

The tense and the subject of the verb are identified by a prefix and/or suffix attached to the verb. While there are many different combinations of verb conjugations, a few common examples using the verb קצר (#301) are provided below.

|        |            |          |
|--------|------------|----------|
| קצרתִי | qa'tsar'ti | I cut    |
| קצרנו  | qa'tsar'nu | We cut   |
| קצרת   | qa'tsar'ta | You cut  |
| קצר    | qa'tsar    | He cut   |
| קצרו   | qats'ru    | They cut |

## Appendix E ~ Verb Conjugations

|       |              |               |
|-------|--------------|---------------|
| קצרה  | qats'rah     | She cut       |
| אקצר  | eq'tsor      | I will cut    |
| נקצר  | niq'tsor     | We will cut   |
| תקצר  | tiq'tsor     | You will cut  |
| יקצר  | yi'qe'tsor   | He will cut   |
| יקצרו | yi'qe'tse'ru | They will cut |
| תקצר  | ti'qe'tsor   | She will cut  |

### ***The Reversing Vav***

When the letter vav (ו), meaning "and," is prefixed to a verb, it usually reverses the tense of the verb. For instance, the verb יקצר means "he will cut," but when written as ויקצר, it means "and he cut."
